DETAILED ACTION

The Examiner of record has changed. Please address all correspondence to Examiner Michael Borin, AU 1631.

Status of claims

Claims 83,84,87 are pending.

Amendment filed 11/07/2005 is acknowledged. Claims 83, 84 are amended.

Rejections and objections not reiterated from previous Office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 102

Claims 83,84 and 87 are rejected under 35 U.S.C. 102(e) as being anticipated by Khwaja et al (US 6113907).

The rejection is maintained for the reasons of record.

Applicant's arguments are considered but are not deemed persuasive.

Applicant maintains argument presented earlier in Theodorescu Declaration that that the reference does not include using gene expression profiles, and further argues that there is not a single occurrence of the words "gene" or "genetic" in the reference of Khwaja. The latter argument is surprising as the reference uses the term "expression" (e.g., col. 26, lines 19-34) which can not be anything else than gene expression. With

regard to the first argument, as stated previously, Applicant has defined an HBR Array as constituting a data set of two or more observations or measurements associated with a herbal composition. Therefore, measurement of biological activities have been reasonably construed as reading on such array. Furthermore, the Khwaja measurements are clearly directed to gene expression. see discussion of gene expression of reverse transcriptase, col. 26, lines 19-34. Further, other biological measurements in Khwaja are considered as measurements of gene expression: for example, measurement of 5-HT reuptake (see, e.g., col. 40, Table 8) reflects result of gene expression of serotonin receptor (see col. 6, lines 53-54).

The rejection is maintained.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
